**I am honoured and pleased that so many outstanding Law Offices showed their interest in our Alliance:
EUROPEAN-US-ASIAN EQUINE LAWYERS.**

In the last decade the Equine Industry has been growing ever since. Also the International horse deals keep increasing annually.

My firm, Schelstraete Equine Lawyers, focuses her practice on the International clients as a result of which we have been working with cross border Equine Law Specialized Lawyers to whom we have introduced many clients and files.

The time has come that these International developments are to be formalized by means of creating an Alliance Group which has been set up in the beginning of 2017.

Through this Alliance Group of independent partners we provide the Equine Industry knowledge, understanding and experience.

Thanks to this Alliance we will be able to provide our clients with a thorough advice. This is not only the case when it comes to the sale and purchase of horses, but also in the event that a dispute arises after the sale and purchase and a civil litigation procedure, often taking place abroad, seems inevitable. As an Alliance Group we will also be able to provide support to our Partners with specific knowledge related to other areas of expertise such as International collaborations, FEI disciplinary cases, liability claims and veterinary legal matters and so on.

KSA offers legal and transactional services tailored to the needs and nature of the client.

KSA's main areas of practice are business law, commercial and civil litigation, insolvency and bankruptcy law, construction law, environmental and land planning law, labor and administrative law, real estate law, non-contentious proceedings, estates, security interests and equine law. Equine matters at KSA are handled by Me Julien-Pierre Côté, himself a breeder of high quality showjumpers and a longtime horse enthusiast, supported by a very competent team of professionals in each relevant field of expertise. We have represented clients in matters relating to horse sales and purchases, lease agreements, horse co-ownership, boarding agreements and vendor's liability.

We have also represented other professionals such as veterinarians with regards to disciplinary and professional issues. We can also support our clients' needs in connection with sports law matters.

KSA's clients are mainly business people, including individuals from Quebec. However, our professionals regularly intervene in Ontario and, occasionally, in Canada, in United States, and in the territory of the European Union. KSA provides services in French and English.

Our work for foreign clients is carried out primarily within the fields of Company Law and Equine Law. When it comes to these legal fields, Schelstraete Lawyers prides itself on its extensive experience and insight into the effects of cross-border transactions.

In order to be able to best promote the interests of Dutch companies and private individuals abroad, we avail ourselves of the know-how of law firms and/or tax specialists in most EU countries and the United States; we maintain close ties with these professionals who apply the same practically oriented approach we do.

In the legal field, equine law is considered a niche. For Schelstraete Lawyers, however, this is not the case. With over 30 years of experience, we are a trendsetting firm in this field.

Mr L.M. (Luc) Schelstraete, LL.M., active at the time as a rider in dressage and combined competition sports, was asked with increasing frequency to answer legal questions related to the equine sport.

Eventually, this led to several employees at the firm becoming active, on a daily basis, with many topics directly related to the equine sport.

Waad Nadim Moghlbay and Daiana Chopita

(12 October 2018)

On 9 December 2017, Endurance rider, Daiana Chopita competed in the CE11* 100 on horse JC Cahuel. On 23 December 2017, endurance rider, Waad Nadim Bou Moghlbay, participated in the CE12* 120 on horse JLB Noche. Ms Chopita also competed on another horse, HLP Gadafi. Samples taken from the three UAE registered horses, namely JC Cahuel, JLB Noche and HLP Gadafi following their respective events revealed the presence of Trometamol, a Banned Substance listed on the 2017 FEI Equine Prohibited Substances List. Both riders were provisionally suspended on 9 and 10 January 2018 respectively as the Person Responsible.

Following an investigation, it was established that the source of the Trometamol found in the horses' samples was a supplement that contained Trometamol as an unlisted and inactive ingredient (alkalizing agent)– which Ms Chopita and Ms Bou Moghlbay could not have known about.

Morgan Sports Law subsequently submitted a request to the FEI List Group that the classification of Trometamol be revised to a Controlled Medication (rather than a Banned Substance). This request was accepted by the FEI List Group and was later approved by the FEI Bureau, meaning that as of 1 January 2019 Trometamol will be reclassified as a Controlled Medication (subject to acceptance by the National Federations).

In light of the reclassification, Morgan Sports Law reached a settlement agreement with the FEI that meant Ms Chopita and Ms Bou Moghlbay would serve a backdated six-month period of ineligibility (instead of a possible 2 years). This agreement has been ratified by the FEI Tribunal and incorporated into a Final Decision, meaning that both riders are immediately free to return to competition.

Paige Johnson free to resume her career with immediate effect

(13 October 2017)

Morgan Sports Law acts for equestrian rider, Ms Paige Johnson, in her successful appeal to the Court of Arbitration for Sport ("CAS") against a one-year ban imposed on her by the Fédération Équestre Internationale ("FEI").
